

Tag Recapture!! Scalloped Hammerhead

The scalloped hammerhead (*Sphyrna lewini*) (Tag ID: GFR2953) named Hammy was originally tagged & released in the waters off Miami Beach by Thomas Batchelor while fishing aboard the Therapy IV on 05/07/2015. "Hammy" was at liberty for 4 days, remaining in the local waters until recapture 17.6 miles south. During the 4 days, Hammy grew approximately 6 inches in length and 20 lbs. in weight. "Hammy" was recaptured by Daniel Pollock fishing aboard the Therapy IV on 05/11/ 2015.
